Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

In regard to independent claim 1, the prior art of record fails to teach or suggest:

An individual, end-sealed packaging bag formed from a sheet of a heat-shrinkable film, said sheet of a heat-shrinkable film having a first side, an opposing second side, an inner surface and an outer surface, said bag comprising:

a first seal connecting said first side to said second side and defining a tube member having a first bag wall, a second bag wall, opposing first and second bag edges, an end and an open mouth opposite said end;

a second seal provided through said first and second bag walls, said second seal extending laterally across the width of both said first and second bag walls at a position proximate said end, whereby an empty product receiving chamber is defined by said first bag wall, said second bag wall, said second seal and said open mouth; and,

Art Unit: 1794

wherein said first seal comprises a peelable seal and is selected from the group consisting of a lap seal, a butt-seal tape and a seal strip; wherein said sheet of heat-shrinkable film comprises a biaxially stretched film having a shrinkage value of at least 20% shrink at 90°C in at least one direction; and wherein said sheet of heat-shrinkable film comprises a multilayer film which includes a peelable system adapted to peel at an interior layer of said film.

In regard to independent claim 43, the prior art of record fails to teach or suggest:

An end-sealed packaging bag formed from a sheet of a heat-shrinkable film, said film having a first side and an opposing second side, said bag comprising:

a first seal bonding said first side and said second side along the lengths thereof thereby defining a tube member having a first bag wall, a second bag wall, opposing first and second bag edges, an end and an open mouth, said first seal comprising a lap seal and being peelable;

a second seal provided through said first and second bag walls, said second seal extending laterally across the width of both said first and second bag walls at a position approximate said end and said second seal being nonpeelable; and,

a product receiving chamber defined by said first wall, said second wall, and said second seal and said open mouth; and,

wherein said sheet of heat-shrinkable film comprises a biaxially stretched film having a shrinkage value of at least 20% shrink at 90°C in at least one direction; and wherein said sheet of heat-shrinkable film comprises a multilayer film which includes a peelable system adapted to peel at an interior layer of said film.

In regard to independent claim 50, the prior art of record fails to teach or suggest:

An end-sealed packaging bag formed from a sheet of a heat-shrinkable film, said film having a first side, an opposing second side, an inner surface and an outer surface and said film comprising a multilayer barrier film, said bag comprising:

a first seal joining said first side and said second side along the lengths thereof wherein such first seal is continuous and defines a tube member having a first bag wall, a second bag wall, opposing first and second bag edges, an end and an open mouth, said first seal comprising a lap seal and being peelable and having a peelable strength of less than 2 kilograms for a one inch strip;

a second seal provided through said first and second bag walls, said second seal extending laterally across the width of both said first and second bag walls at a position

Art Unit: 1794

approximate said end and said second seal having a seal strength of greater than 3 kilograms per inch; and,

a product receiving chamber defined by said first wall, said second wall, and said second seal and said open mouth;

wherein said sheet of heat-shrinkable film comprises a biaxially stretched film having a shrinkage value of at least 20% shrink at 90°C in at least one direction; and wherein said sheet of heat-shrinkable film includes a peelable system adapted to peel at an interior layer of said film.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
